PUBLICATION DATE
November 06, 2026

1. Fast-Track System Setup in 5 Steps

Welcome to **PrathamOne EduOS**. This Quick Start Guide gets your coaching academy operational in less than 30 minutes. Follow these five core steps:

1. **Step 1: Sign in and Customize Your Institute Branding**

   Navigate to `http://localhost:80/login`. Sign in using your administrator credentials. Immediately go to **Settings** (`/settings`) to upload your coaching institute's logo, set your primary brand colors, and verify your institute contact phone and address.

2. **Step 2: Create Educational Boards & Standards**

   Open **Academic Structure** (`/academic`). Under the **Boards** tab, add your curriculums (e.g. CBSE, State Board). Switch to the **Standards** tab and add your class grades (e.g. 9th, 10th, 11th Science, 12th Commerce).

3. **Step 3: Define Batches & Classroom Capacity**

   In the **Batches** tab, create morning or evening batches for each standard. Set classroom seat capacities so the system can monitor intake limits.

4. **Step 4: Configure Fee Packages & Payment Installments**

   Open **Fees** (`/fees`). Click **Create Fee Plan** to configure your standard tuition fee packages and installment plans (e.g. Quarterly or Monthly).

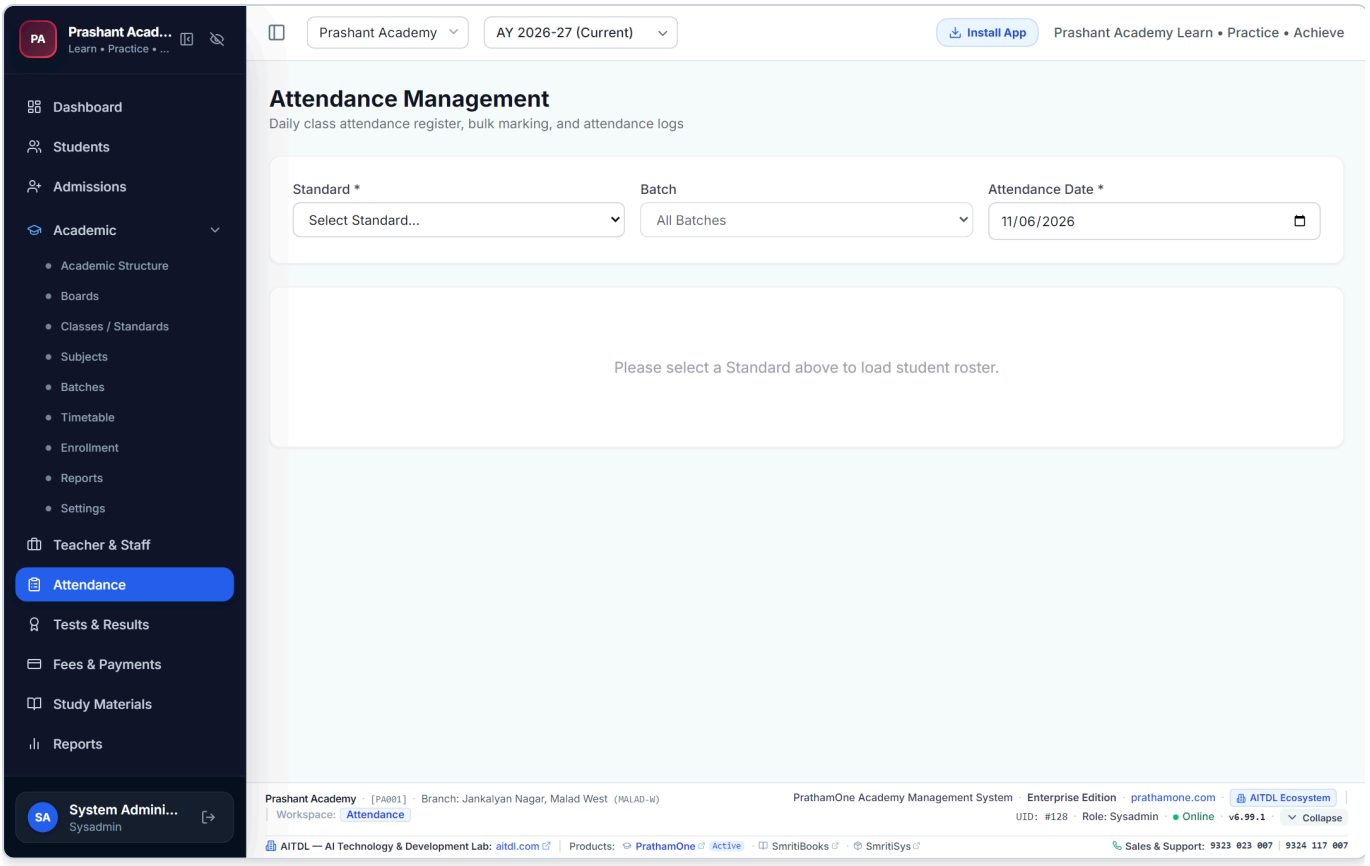

5. **Step 5: Admit Students & Issue Identity Cards**

   Open **Students** → **Add Student** (`/students/add`). Enter student profile details, select their standard and batch, and submit. The system assigns a permanent registration code and offers instant ID card generation via **Forms** (`/forms`).

2. Core Daily Operations

2.1 Daily Attendance Marking

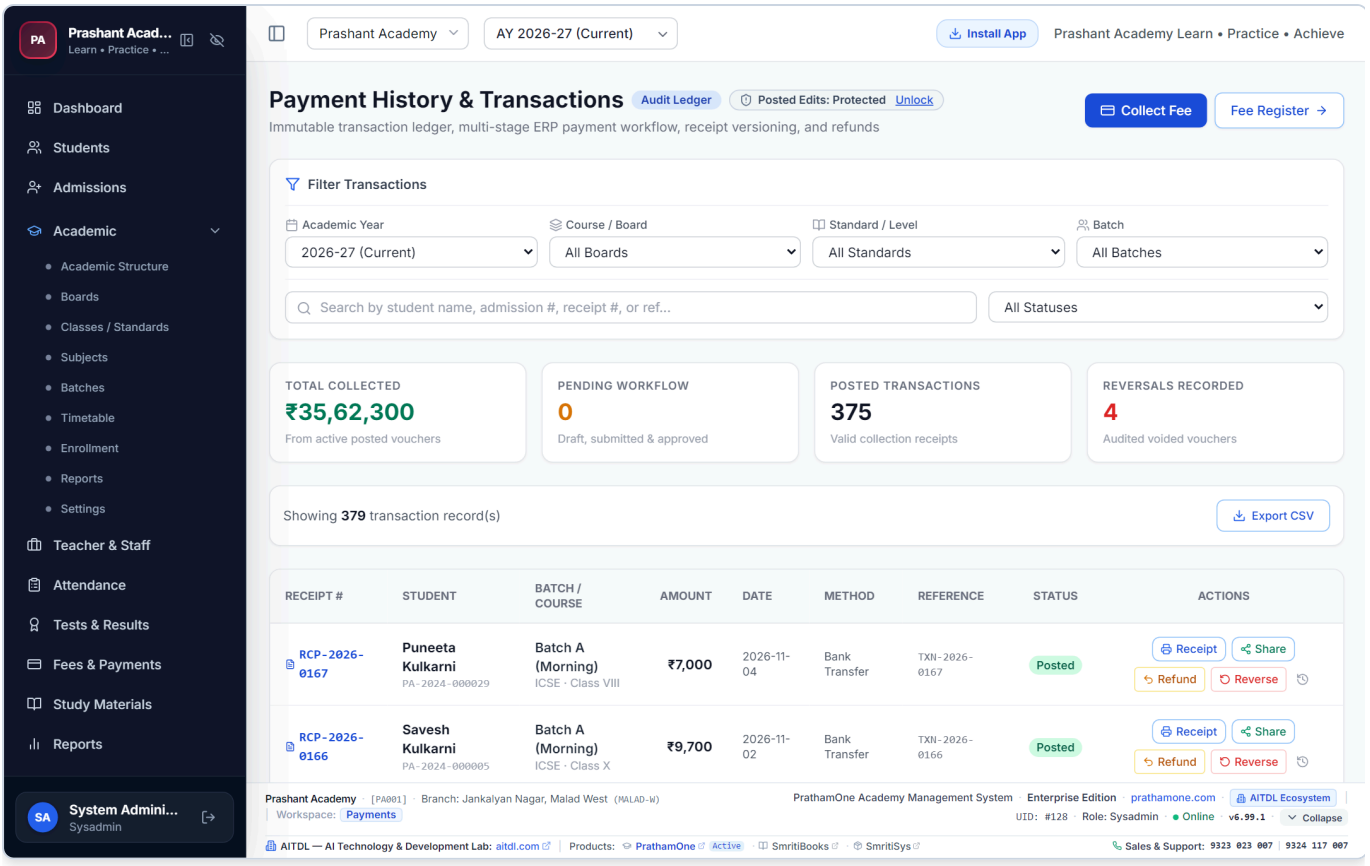

Open `/attendance`, choose your batch, and verify the roster. All students default to Present. Click any student to toggle to Absent or Late, then click **Save Attendance Roster**.

Daily Attendance Marking Screen.

2.2 Collecting Fees & Printing Receipts

Go to `/payments` → click **Record Payment**. Search for the student. Their pending installments appear automatically. Enter the amount paid, select Cash/UPI/Cheque, enter transaction reference, and click **Save & Post**. Click **Print Receipt** to issue an official thermal or A4 receipt.

Payment Ledger & Receipt Generation.

3. Help & Emergency Contacts

PrathamOne EduOS Support Helpline
